FAO: parent/carers of children in Year Six.

RE: School Nurse Health Service

Slough Child and Family Wellbeing provides your School Nursing Service which aims to promote a healthy lifestyle for school aged children following the healthy child programme.

Every primary school has a named school nurse who is qualified to provide age-appropriate advice, support or signposting on a range of health issues that may affect your child, this could include:

- General health and growth
- Dental hygiene and oral care
- Additional health needs and disabilities
- Exercise
- Smoking and drugs education
- Bullying
- Long term health conditions
- Eating and nutrition
- Bedwetting and soiling
- Puberty
- Healthy Relationships
- Mental Health and Emotional Wellbeing
- School absence
- Being a Young Carer

You can call our [advice line](#) about your child's health or wellbeing between 09.00-17.00 Monday to Friday. The team will send a message to your named school nurse who will call you back as soon as they can.

Your child may be referred to the school nursing team, with your consent, by a schoolteacher or pastoral care lead. You can also refer your child for help with health needs using the parent contact form.

We may also want to discuss health and wellbeing needs with you or your child following the universal health reviews carried out at school entry and year six.

What are the Universal School Nurse health reviews?

The Universal Health Reviews are online questionnaires that help us understand your child's health and development needs. The questions cover different areas of your child's health and wellbeing. As you or your child complete the questionnaire, you will receive useful tips, advice, and links to trusted information that you can save and use later.

The responses from the assessment are sent securely to a qualified specialist community public health school nurse, who will review the answers so they can offer health advice for families and children. Visit the [School Screener](#) parent page for further information. During the review all children will receive a health education session to help them understand their health needs and answer the questions as accurately as they can.

In addition to the health questionnaire your child will be invited to attend the '[National Childhood Measurement Programme](#)' which supports local services to provide a whole school approach to healthy lifestyles. You can see more information on our website by scanning the QR code below.

What are the benefits for my child?

These reviews will use your and your child's voice to identify individual health needs and allow our team to provide individual, small-group, year-group and parent health and wellbeing sessions to meet the needs of your child.

Health and wellbeing needs that are identified at their earliest presentation will enable your child to receive help at the earliest opportunity from the most qualified health professional and as such prevent problems from getting worse.

When will my child be seen?

Children in Year Six will be seen between September - December 2026.

Your child's school will notify parents and carers of the specific measurement date approximately two weeks before the School Health Team visit.

How do I receive my child's NCMP results?

All communications with the school health team can be viewed on the School Screener parent portal.

To register your child, view your child's NCMP measurements or send an opt-out for the NCMP and/or health questionnaire please login into [Reception & Year 6 health Screening Programmes](#)

What if I have questions?

A member of the Public Health Team will be available via our duty line between 09:00 – 17:00 every weekday, please call 0300 247 0073 with any questions you may have. You can also visit our [website](#) or email us at hcrq.sloughchildandfamilywellbeing@nhs.net

You can also find lots of helpful information on our app **Growing Well Slough** available at

Parent Portal

Quick-Start Guide

Four simple steps to get started

<https://sgh047.schoolscreener.com/Portal/#/slough/g/2627RecY6>

1

STEP 1 — THE INVITE

Look out for your invite

- Sent by your school or school nursing team
- Includes a link or QR code to the Parent Portal
- Read about the health programme

2

STEP 2 — REGISTER / LOGIN

Open the Parent Portal

- Click the link or scan the QR code
- Find your child's school
- Register or log in to your account

3

STEP 3 — COMPLETE THE FORM

Submit your child's information

- Confirm your child's details
- Complete the short questionnaire
- Submit one form for each child

4

STEP 4 — RESULTS IN YOUR INBOX

Receive your child's results

- Screening takes place at school
- Results are issued by the School Health Team
- Letters appear in your Parent Portal inbox

Register once

Complete one form per child

Results appear automatically in your inbox
